

2024 Call for 4th year PhD OR 1st post-doctoral fellowships

The Labex Memolife is launching the present call to offer complementary funding to PhD students having completed or currently completing their thesis in one of Memolife participating teams.

All PhD students from Memolife member teams are eligible only to one of these two proposed formats:

1/ Students enrolled in a PhD program, who aim to complete their thesis research project (**4th year only**). Fellowships will be funded for 6 to 12 months, depending on the project progress. No support will be provided beyond the thesis defense date.

Applications should include:

- A Curriculum Vitae;
- A description of the research project, complete with the thesis title and summary (1 page max), current results (2 pages max) and proposed program for the thesis work completion (2 pages max);
- Intermediate evaluation reports from the thesis committee;
- A proposed timeline indicating project completion and date of thesis defense
- A Letter of support from the Labex host team leader
- A summary form including:

Applicant's last and first names, birth date, nationality, name of host team leader/PhD supervisor, start and end dates for requested funding (*Note : the indicated dates should not permit a 5th year registration*)

All candidates are requested to apply in parallel to other funding bodies (FRM, LNCC, INCA, ARC, Associations...), document attesting of applications will be requested.

2/ Students who have recently obtained their PhD or whose defense is planned before the fall of 2024 and who need to finalize their research project (**1st post-doctoral fellowship, only awarded to work in the group where the thesis was completed**). Fellowships will be funded for 6 to 12 months.

Applications should include:

- A letter of motivation (1 page);
- A Curriculum Vitae (1 page);
- A summary of the results obtained during the thesis (2 pages max), proposed program for the project to be completed (2 pages max). Future scientific and financial perspectives after completion of this first fellowship should be indicated;
- A letter of support from the Labex host team leader
- A brief summary form including:

Applicant's last and first names, birth date, nationality, name of host team leader/PhD supervisor, expected start and end dates for requested funding

Applications must be sent by e-mail to brigitte.bouchard@college-de-france.fr and frederique.godfroid@ens.psl.eu no later than **Sunday March 17th, 2024**.

Only one application from each participating team will be considered within this Call.

Evaluation Procedures:

Applications will be evaluated by members of the Labex steering Committee.

Selection criteria:

Evaluation will be based on the quality of the applicant's training curriculum, project advancement and thesis results, quality and feasibility of the proposed project and the applicant's future career perspectives.
